

Cyber-Relax massage

Relax, soothe and invigorate tired muscles!

Cyber-Relax

Our Cyber-Relax Massage chair is designed to target your body's vital pressure points while you sit back and relax. Our Cyber-Relax Massage service offers you the opportunity to enjoy a variety of massage options that:

- Relieve stress, decrease muscle tension and increase flexibility
- Improve blood circulation
- Leave your tired muscles feeling relaxed and rejuvenated
- Decrease harmful body toxins
- Reduce stress and fatigue

Designed for ultimate relaxation, Cyber-Relax Massage therapy uses Point Navi Sensor to scan your body's shape and posture to offer users 509 massage combinations.

Results are comparable to an hour long massage in just minutes. Cyber-Relax Massage customers remain completely clothed and enjoy the experience in the privacy of their own room.

I never would have believed that a chair could give me such a deep, invigorating massage. It adjusted to the shape of my body and really got in there and soothed all of my muscles. It was like having a real masseuse but not nearly as expensive!"
